

Coronavirus (COVID-19)

What to do if you are feeling unwell

1

Seek advice from a medical professional in the first instance (unless it is an **emergency** in which case you should call 000). Please call ahead to let the medical facility know your symptoms and follow their advice.

2

If you are advised by a medical professional that you're experiencing an infectious disease and that it is safe to return home, please contact your CTC Course Advisor and advise them of your situation.

CTC students who are ill should not return to class until given clearance to do so by a medical professional.

If it is an emergency, always call an ambulance on 000
